

***INTEGRITY FLIGHT SUPPORT SIGNS MULT-YEAR AGREEMENT FOR JET FUEL AND FBO SERVICES AT
PITT MEADOWS REGIONAL AIRPORT***

FOR IMMEDIATE RELEASE:

September 8, 2022, Pitt Meadows, BC – Integrity Flight Support is very pleased to announce the signing of a multi-year agreement for the rights to the provision of jet fuel and Fixed Base Operator (FBO) services at the Pitt Meadows Regional Airport, commencing October 1.

“We are grateful to the Pitt Meadows Airport Society for entrusting Integrity Flight Support to be the jet fuel provider for the airport, and for supporting our efforts to establish a new FBO in the fantastic new terminal,” said Geoff Bowering, President of Integrity Flight Support. “YPK is ‘new and improved’ and an exciting place to be. We believe a significant opportunity exists to market YPK as the preferred general aviation gateway to Vancouver and the Fraser Valley, particularly as we launch our FBO operations over the coming months.”

Integrity Flight Support will establish a full-service FBO in the main airport terminal, targeting completion in Fall 2022. In addition to enhanced, full-service fuel provision, services will include ramp handling, passenger and crew lounge, concierge services, office and meeting rentals, aircraft parts distribution, and private aircraft management. Though fuel services are focused on the turbine market, the suite of services is designed to accommodate and serve the full breadth of the general aviation community.

Parts distribution is already in full-swing. With a full inventory of consumables from tires and tubes to batteries, starters, oils and filters, fasteners, and more, Integrity has been serving local AMOs and flight schools from a temporary facility on the south side of YPK since early this year. All owners and operators are welcome to stop in at Hangar 320B.
